BENEFITS

- ✓ renewable raw material
- ✓ biodegradable and compostable
- ✓ purely mechanical manufacturing process
- ✓ without processing cellulose or starch
- ✓ no environmental pollution from washing up
- ✓ stable
- ✓ tasteless

Practically. Hygienic. Safe.

Bamboo grows very quickly and is cultivated in controlled and certified plantations in Asia. The harvested bamboo is cut into pieces and then pressed into the desired shape with the help of steam and pressure.

ENVIRONMENTALLY FRIENDLY
PACKAGING

ENVIRONMENTALLY FRIENDLY CUTLERY-SETS MADE OF WOOD

Napkin in paper bag
Wood „pure“

☐ 10 x 50

BENEFITS

- ✓ biodegradable and compostable
- ✓ made of light birch wood, not bleached
- ✓ shatterproof thanks to special surface treatment
- ✓ stable and tasteless

PAPER CUPS

„Coffee to Go“ and biodegradability do not have to be a contradiction.

Instead of a conventional plastic coating, the new cups have a biodegradable one. Due to the heat resistance of the coating, the hard paper cups are ideal for hot drinks such as the popular „Coffee to Go“.

Art.-Nr. 88949
50 Paper cups
brown
0,1 l, Ø 6 · 6 cm
☐ 20 x 50

TO-GO PACKAGING: DELICACIES CUPS MADE OF PP

PAPSTAR deli cups are characterized by their outstanding properties for food packaging. The transparent cups and lids made of polypropylene are acidresistant and tasteless. They can be used for marinades and salads, cream cheese and cottage cheese but also for meat products such as sour meat etc. and for filling with antipasti products. PAPSTAR cups are equipped with a tamper-evident seal, which guarantees the first take out. This ensures freshness of content and increases hygiene standards. The sealed lid prevents leakage of the contents and ensure safe transportation.

TO-GO-PACKAGING: PACKAGING CUPS WITH LIDS MADE OF PP

Stable Packaging cups with lids

The ideal To-Go packaging solution for salads, delicacies, antipasti and other hot dishes up to 80 °C.

Due to the integrated lid, the cups can be stacked easily and suits perfectly for take home transport. The packaging cups made of polypropylene (PP) are 100 % recyclable and completely transparent. That's why you can see immediately what's in the cup and the quantity of the food.
